

The Plain Duty of Every American

Your duty, as an American citizen, is plain, definite, and imperative. Your sons and your neighbors' sons are going abroad to fight for their country, their flag, their homes—and for YOU.

They cannot fight without food, shoes, clothes, bread and bullets.

The Government looks to you for the money to buy these things. Your Duty is to lend—not give—this money.

It is more than Duty—more than patriotism—it is a privilege to buy War Savings Stamps

The money you pay for them will help win the war—help keep our soldiers fed, clothed, armed, and protected—help keep your country safe for Democracy.

The United States Government guarantees to pay your money back. It pays you interest on your money, 4 per cent, compounded quarterly.

You can buy War Savings Stamps at post-offices, banks, and other licensed selling agencies.

An Operation by Telegraph.

An operation carried out under directions given by a surgeon 1,800 miles away and sent by telegraph saved a life in Australia recently, according to the Scientific American. The subject fell from his horse at Hall's Creek in northern Australia and suffered serious injuries, including a rupture of the urethra. An operation was urgently necessary and there was no doctor within 1,000 miles. The condition of the patient was described by telegraph to a doctor in Perth and he sent back, by the same means, instructions under which the postmaster at Hall's Creek with such surgical instruments as he could get, the chief of which was a razor, carried out the operation successfully.

Turkish Government.

The Turkish government is a hereditary monarchy, of which the sultan is both temporal and spiritual head. The succession to the throne, or sultan, goes in the senior male descendant of the house of Osman, of which the present sultan, Mohammed V, is the thirty-sixth sovereign in succession and twenty-ninth since the taking of Constantinople. Under the constitution of Turkey, the sultan does not marry, but all children born in the harem, whether of free or slave women, are counted legitimate and of equal lineage, the oldest male child always succeeding to the throne without regard to the status of the mother or the question of marriage, which really does not figure in the case at all.

On Saturday, April 27th, twelve men will go from Pocahontas to Camp Meade, Maryland.

EVERYONE MUST HELP.

Wars cannot be fought without money, and upon the Treasury centers every financial demand upon the Nation.

The rich of the country cannot do it alone; the women of the country cannot do it alone; but all of us, the people of the United States, disregarding partisanship, forgetting selfish interests, thinking only of the supremacy of right and determining to vindicate the majesty of American ideals and secure the safety of America and civilization, can do the great and splendid work which God has called upon us to do.

W. G. McADOO,
Secretary of the Treasury.

FOOD CONTROL MEANS VICTORY

European Shortage Places Problem Before American Government—Farsighted Policy Adopted.

NEED 75,000,000 BU. WHEAT.

Food Administration Asks Aid of Every American in Gigantic Task of Feeding Millions.

It is the food problem over there that makes a food problem over here. If we wished to be supremely selfish—and supremely shortsighted—we could go on eating as much as we like and whatever we like, without much difficulty or interruption—at least, until the Germans came!

But we are not doing things in that selfish and suicidal way. We are trying to make a great common pool of all our food, and all of the food of the allies, and all of the food we can get from South American and other neutrals, and dividing it up fairly among America, England, France, Belgium and Italy.

This does not mean that all of the people in the great pool are going to have the same ration, but means that we are trying to arrange to have enough for everybody, so that the soldiers—our soldiers and their soldiers—will be well fed, as they have to be to fight hard and continuously, and that the munitions workers and the workers in all the other necessary industries, and the men and women at home will all have enough to keep alive and well. It is absolutely necessary to do this if the war is to be won, and we are going to do it, but it means planning, working, arranging, co-operating, being careful, not wasting, saving.

And it means that each and every one of us has got to help.

Now, we have enough and more than enough food for ourselves, and the Government is going to see to it that we keep here at home a sufficient supply of every essential kind of food to support our people. But over there they simply have not enough. Lord Rhonda, the English food controller, recently cabled the American food administrator, that unless we can send the allies before the next crop harvest 75,000,000 bushels of wheat in addition to what had been sent up to January 1 of this year he could not assure the people of the allies that they would have a sufficient supply of food to carry on the war.

He did not say anything in this cable about the other food necessary, but he has told of these needs in other cables—and by his actions in England. For example, his latest regulation compels a reduction of meat eating in the United Kingdom to a maximum of one pound per week per person, this pound including the bone and other waste parts in the meat as bought in the shop.

The allies must have more wheat, more meat, more fats, more dairy products, more sugar. Their harvests were very short—France had less than half her normal crop of wheat—and the available shipping is small in amount and constantly being lessened by submarines, so that it is now practically impossible to use any ships for the long voyage necessary to bring food from Australia and other remote markets. The food must come chiefly from America. In specific figures it is necessary for us to send to the allies 1,100,000 tons of foodstuffs a month. This is a great responsibility and a great problem. The food must be found, and also the ships to carry it. It is being done, but can only continue to be done by the help and full cooperation of all of us over our broad land. We must produce and save more.

To supply the wheat necessary until the next harvest, we must reduce our consumption by from one-fourth to one-third; we must cut down our usual average consumption of meats and fats by from 10 to 15 per cent, and dairy products by about 10 per cent.

Over there they are tightening their belts and doing everything they can. They are eating war bread; they are cutting down their sugar in England to two pounds per person per month, and in France and Italy to one pound—how much are you eating?—and they are using ration cards for most of the staples. We must meet sacrifice with sacrifice. If we don't, we are helping to lose the war instead of helping to win it.

REGISTRANTS IN CLASS ONE

The classification of all registrants in Pocahontas County has been completed by the Local and District Boards, and we publish here the names of all men placed in Class One. The names are taken in their order of liability for military service, and where a registrant is in limited military service, or has been drafted or has volunteered, that fact is noted just after the name. Let every one preserve this list for reference.
